Electronic In-Room Safes

A Real Service for Your Guests

In a time when expectations of a quality hotel stay are increasing, items that used to be considered special amenities are now expected by guests.

Today's travelers expect to find a safe in their room.

Onity's electronic in-room safes are designed with your guests' comfort, convenience and security in mind. Your guests will appreciate the difference of an Onity in-room safe and your staff will appreciate the ease of management.

Like all Onity solutions, our products are backed by a commitment to provide superior global service with local support.

With five different sizes available, your guests can protect almost any size valuable from the smallest jewelry to the largest laptop computer or video camera.

Suite

Height:	22.43	in	570	mm

Onity safes have simple instructions and are easy to operate.

Discover the benefits for both you and your guests of choosing an Onity electronic in-room solution:

OS300

Digital Keypad Safe with Audit Trail

HTCombo

Combination Guest Keycard Interface and Keypad Safe

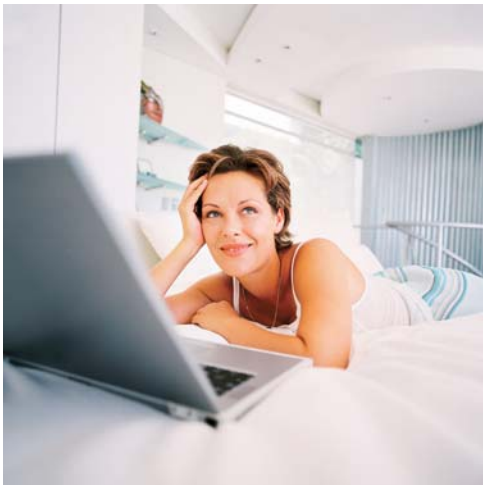

The enhanced Fluoropad™ of Onity´s OS safes lets your guests view the keypad in low light.

All Onity safes have an insertion-protected door, with two solid steel bolts, feature “code to close” technology, a replaceable mechanism, and easy battery access to help reduce operational and maintenance issues.

Choose to charge guests a minimal fee for safe usage and the payback period is short while the return is very high.

Open up with an Onity electronic in-room safe

Onity OS300

OS300
Digital Keypad Safe with Audit Trail

Loaded with features, this model provides increased security, including an audit trail and Portable Programmer unit with optional Portable Printer.

The user-friendly keypad has 4 or 6-digit code capability and is as easy to operate for you as for your guests. Increased security is provided through a “Non-resident Master Code”.

Extended Portable Programmer (XPP)

Portable Printer
(optional)

More information about Onity Electronic In-room Safes is available at **www.onity.com**

Onity HTCombo

HTCombo
Combination Guest Keycard Interface and Keypad Safe

This easy to operate model uses a 4-digit code in combination with the room keycard and provides increased security through an audit trail and a "Non-resident Master Code".

The HTCombo safe seamlessly interfaces with any Onity locking system; it features enhanced rental mode through keycard usage, and an optional PMS interface.
